

Dust-free drilling with the DDC 50.

Holes are quickly drilled. However it takes even more time to remove the drill dust. Kärcher's DDC 50 drill dust catcher solves this problem. With a vacuum function, it adheres to all common indoor surfaces. It then effectively and reliably catches all the drill dust.

Both hands free

The DDC 50 adheres to the wall with a vacuum and directly catches drill dust without any further devices or tools. The DDC 50 works with every drill and up to 10 mm drill bit size.

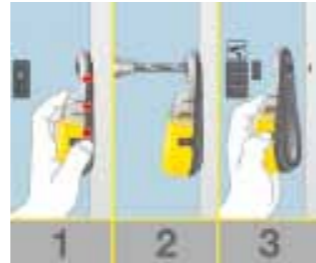

Time-saving and clean

The DDC 50 catches up to 23 cm³ of drill dust. This volume is sufficient for 10 drill holes with a 6 mm drill bit.

Scope of delivery

We deliver the DDC 50 with two 1.5 V mignon batteries – rechargeable batteries can also be used. The protective cap included can also be used as a wall bracket.

It's that simple

Set up the machine, switch it on, drill, and when done, switch off the DDC 50 – that's it.

DDC 50

- Vacuum-stick function for all normal indoor surfaces
- No need for additional vacuum cleaner or special power drill
- Both hands free for drilling

Technical data

Faster than a broom – more convenient than a vacuum.

Kärcher cordless electric brooms are ideal for quick clean-ups of carpet or hard floor surfaces. They are used whenever using a vacuum cleaner would be too much trouble and a broom would be too impractical. The battery-operated sweeping rollers eliminate dirt quickly – without annoying cables or unnecessarily bending over. Kärcher offers a special pet hair brush with a unique brush technology for the effective removal of animal hair.

Cleaning close to edges

Additional end bristles enable the K 55 plus to clean right up to the edges of objects.

Space-saving storage

Wall bracket and battery charger keep the cordless broom charged and ready for the next clean-up. The charger can be stored on the tray.

Removable roller brush

The roller brush can be removed and easily cleaned.

A clever idea

The pet hair brush is surrounded by a mesh sleeve that can be removed for cleaning. The hair sticks to the sleeve and can easily be removed.

K 55

- Dustpan easy to remove, no need for dust bags
- Removable battery can be recharged on site or by remote connection
- Ergonomic grip and telescopic handle

K 55 pet

- Brushes can be changed for greater versatility
- Effectively picks up animal hairs, easy-to-clean brush
- Specially developed for pet owners

K 55 Plus

- Brushes can be changed for greater versatility
- Two different brushes included
- Push-button brush changeover
