

Compact class – fast and easy with steam.

The entry class of optimised steam cleaners has arrived! The new steam cleaner series features some spectacular improvements over its predecessors: shorter warm-up time, less energy consumption and reduced weight are only some of the impressive benefits. There have even been beneficial developments for the accessories – for example with regard to design, ergonomics and handling.

Safety lock
This locking system ensures necessary safety and prevents small children from using the machine

Removable tank
For simple filling, e.g. under the water tap.

Better cleaning effect
The optimised floor nozzle holds the cloth better and the cleaning surface is larger. For even more effective and thorough cleaning.

Convenient transport
The ergonomic handles of the steam cleaner range make it easy to transport the machines.

Cleaning and ironing with one machine.

Kärcher steam cleaners can be used just about anywhere. They prove their capabilities in the cleaning of hard floor surfaces such as tiles as well as numerous other cleaning tasks: bathroom and kitchen fittings, wall tiles, shower cabins and many other hard surfaces. They clean without cleaning agents – environmental friendliness with proven Kärcher quality.

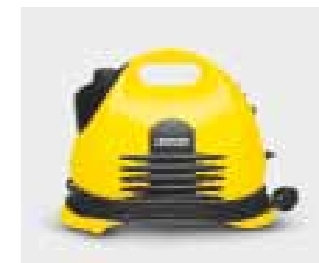

True general purpose machines
Kärcher steam irons save up to 50% of ironing time. Even heavy fabrics can be taken care of in no time at all.

Highest level of safety
All Kärcher one-tank steam cleaners are equipped with a safety lock. This prevents one from burning oneself – the boiler opens only if the pressure has fallen.

Unique
The unique microfibre abrasive cloth (comes standard with the SC 1125 Plus) simply wipes scale and soap residue away.

Good storage
The integrated cable storage keeps the cable stored directly on the machine.

Ready for use in 15 seconds
Descaling function

SC 952

- Handheld steam cleaner for quick clean-ups
- Heating time only approx 15 sec.
- Descaling function

SC 1.020

- Light and compact handling
- With cleaning equipment
- Space saving

SC 1.030

- Ironing in half of the time
- With cleaning set and power outlet for optional ironing
- Space saving

SC 1.030 B

- Light and compact handling
- With cleaning equipment and steam iron
- Space saving

You will find the extensive range of original Kärcher accessories on pages 120-123. Cleaning and care agents on pages 124-125.

The comfort range – for medium to large areas.

Be it grease deposits in the kitchen or large-area cleaning jobs, such as the bathroom with the SC 1202 you can clean quickly, hygienically and conveniently. Thanks to the 1.6-litre tank, it is possible to work for lengthy periods without interruption. The standard level of equipment offers the ideal solution for a wide range of cleaning tasks.

Making a point of cleanliness
The detail nozzle cleans wash basins and fittings.

Smooth gliding
The Kärcher steam iron with easy glide stainless steel soleplate.

Iron better with Kärcher
With Kärcher steam pressure irons, ironing can be up to 50% faster. The consistently high pressure makes it easy to iron even heavy fabrics.

Easy to fill
The filler funnels are integrated into the design. Because of this it is easy to fill the machines.

SC 1202

- Large wheels for easy mobility
- Extensive range of accessories
- Accessories accommodated on the unit

SC 1202 B

- Including steam iron with easy glide stainless steel soleplate

SC 1202 B Profi

- Including professional steam iron with precision finish aluminium soleplate and cork handle

For the highest demands – the SC 1402 with 2 tank system.

The SC 1402 features a two-tank system and has ample reserves of steam for all cleaning tasks. Users also do not need to wait for the pressure to drop when refilling. They can add the water and it is automatically pumped from the tank to the boiler. The SC 1402 is a universal household professional machine; safe and incredibly easy to use.

Takes care of stubborn dirt
The soft cover made of micro-fibres dislodges and retains stubborn dirt. This is ideal for especially heavy soiling, e.g. in the kitchen.

Can be filled without interruption
The two-tank system makes it possible to fill the steam cleaner without any interruptions ensuring continuous operation. It is therefore ideal for large cleaning jobs or ironing.

Removable water tank
The tank can be removed and filled, even under a water tap. The water level indicator makes refilling more convenient.

Cleans everywhere
The oscillating turbo brushes remove stubborn dirt even in areas that are difficult to reach.

SC 1402

- Continuous operation thanks to two-tank system
- Removable tank
- Casters for excellent manoeuvrability

SC 1402 B

- Including steam iron with easy glide stainless steel soleplate

SC 1402 B Profi

You will find the extensive range of original Kärcher accessories on pages 120-123. Cleaning and care agents on pages 124-125.

The top range – versatile and powerful.

The SC 1502 has everything you need for all-round cleaning applications: outstanding steam pressure, a big tank and a package of accessories for more speed and user convenience.

Better cleaning effect

The optimised floor nozzle holds the cloth better, the cleaning surface is larger, and cleaning is more effective and thorough.

Innovative holder

The new floor nozzle features an innovative holder. This makes it possible for the cloth to cover the entire floor surface, and it can dislodge and take up more dirt.

Freshen up textiles

Hanging clothing and textiles can be freshened up, smoothed, and freed of odours with the optional textile care nozzle.

Cleaning joints and corners

The rotary steam nozzle increases the cleaning action of the steam and is therefore particularly suitable for cleaning joints, crevices, corners and other awkward areas.

SC 1502

SC 1502 B

SC 1502 B Profi

- Powerful steam cleaner ideal for efficiently cleaning large areas
- Steam flow control
- Practical accessory compartment

The SC 1702 – for the highest demands.

The standard features of the SC 1702 are the automatic cable rewind and the Vapohydro moisture control which not only provides steam but water too. The water can be switched on the handle, which cleans away the dirt dislodged by the steam. This achieves optimal cleanliness even faster, more easily and more conveniently.

Iron faster

Kärcher steam ironing stations iron even multilayered fabrics quickly and effectively due to their high steam pressure. Clothing can be freshened up and smoothed directly on the hanger.

Vapohydro moisture control

When cleaning e.g. the restroom, one can use Vapohydro for adding hot water. The steam dislodges the dirt and the water washes it away.

Cleaning with Vapohydro

One can choose between cleaning with steam or with hot water.

No cable chaos

The integrated automatic self-winding electric cable is always quickly and conveniently stored when not in use.

SC 1702

SC 1702 B

SC 1702 B Profi

- Moisture control
